- **Pleasure Navigation**
- **MotoSurf**

Individuals wishing to attempt a record not specified in the UIM International class rules and/or the BPBA National class rules must submit a written request to the secretary of the record week organising committee. This request should be made at least three calendar months prior to the start of record week.

There are two main reasons for this requirement: first, we must be able to satisfy the planning authority requirement that entrants are genuinely attempting an official record. Second, if a team has special needs

that require additional safety measures or specific planning, we need sufficient time to prepare accordingly.

The records week team might request additional details to show that all aspects of safety have been thoroughly considered and clarified, ensuring precautions have been taken as much as possible. The committee reserves the right to decline any entry at its discretion. Applicants are therefore encouraged to submit their dialogue promptly, as making minor changes or additions is considerably more manageable prior to arrival.
