ELIGIBILITY

OFFSHORE CLASSES

Offshore qualifications must be under the class specifications current at the date of the attempt.

For **UIM World Records** a boat as entered must have finished 1st, 2nd or 3rd in its class in a World or Continental Championship event. If no Championship has been held, boats that have participated in national races and finished top three will be qualified to set a world record (UIM 601.04). For **British Records** a boat must have qualified for a world record attempt or finished in 3 national events. The boat must be in the same class and as raced and full equipped for national racing.

SPORTS OUTBOARD CIRCUIT CLASSES

No qualifications required for weight restricted national classes. For non-weight restricted classes, a boat and driver shall have finished 1st, 2nd or 3rd in a national championship points event may, in the same class and as raced, attempt a record.

HYDROPLANE CLASSES

There are no restrictions on the eligibility of hydroplanes attempting National or International records. The event organiser can determine the classes to be attempted in any particular event and can determine, as far as accepting an entry is concerned, the eligibility of an entry where some pre-qualification is required.

SPEED REQUIRED

The margin required to claim a new record is an increased of at least **0.3%**.
